ALICIA L. FIERRO

ART UNIT	PAPER
4121	20090225

DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

This correspondence is supplemental to the Non-Final Office Action dated February 4, 2009 and the supplemental communication dated February 10, 2009. In response to a telephone call from the office of Mark Pohl, the Examiner notes that although no IDS was submitted with the application, some prior art documents listed on the ISR were considered to the extent of their English language patent family members as noted on the ISR in the examination of this application. The following references cited in the Search Report have been considered, but will not be listed on any patent resulting from this application because they were not provided on a separate list in compliance with 37 CFR 1.98(a)(1): EP 0 127 099A was considered insofar as its English language patent family member, U.S. Patent No. 4697022; EP 0 004 920A was considered insofar as its English language patent family member, U.S. Patent No. 4503067; and FR 2196165A was considered insofar as its English language patent family member GB 1369580 (provided by Applicant). In order to have the references printed on such resulting patent, a separate listing, preferably on a PTO/SB/08A and 08B form, must be filed within the set period for reply to this Office action.

It was determined that consideration of the above prior art documents does not necessitate amendment of the Office Action dated February 4, 2009.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALICIA L. FIERRO whose telephone number is (571)270-7683. The examiner can normally be reached on Monday - Thursday 6:00-4:30 EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Nolan can be reached on (571)272-0847. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
